## Tiger Tots Preschool Disclaimer

---

The McKeesport Area Technology Center's Child Care program is designed to provide high school students with the proper experience they will need when entering into the child care/education field. The Tiger Tots Preschool was established to allow high school students in the MATC Child Care program to work with preschool aged children and develop lessons. Our high school students are not trained to work with children that require special services outside of our program. Please be aware that your child may be asked to leave if we feel that the child requires other services other than what we provide.
